Industry Challenges

Streamline all your operations and focus on productivity

DataNote ERP software streamlines the processes of the plastic industry by integrating and automating various functions, from production scheduling to inventory management. Let's understand how DataNote ERP software is useful for various sectors:

Woven Sacks and FIBC

Inventory management

comprehensive inventory and production tracking capabilities giving a holistic view of stock levels.

Minimize waste

The seamless integration of the industry is achieved through an effective communication module.

Efficient reporting

All relevant parameters, like power consumption, contractor charges, and both fixed and variable expenses.

Production monitor

Automatic availability of production data from preceding departments to downstream departments, enhancing operational efficiency.

Nonwoven & Technical Textile

Multiple measurements

Seamlessly accommodates multiple units of measurement, including weight, length, and square units.

Store all your inventory records

The actual weight and length of a roll must be recorded in inventory records.

Analyze stock availability

DataNote helps analyze the order book and stock availability that optimizes cutting while minimizing fabric waste.

Process routing

For nonwoven products that undergo slitting to narrower widths, square units of measurement, and process routing.

Streamline all your operations and focus on productivity

DataNote ERP software streamlines the processes of the plastic industry by integrating and automating various functions, from production scheduling to inventory management. Let's understand how DataNote ERP software is useful for various sectors:

Plastic Mold Items

Multi-Level, Process-Specific Bills of Materials

Unlimited pre-defined bills of materials that cater to the specific requirements.

Material Requirement Planning

We provide daily or periodic material requirement planning at the plant, machine, shift, and output item levels.

Seamless Automation

The automation capabilities of DataNote ERP software streamline all operations, enhancing efficiency and productivity.

Centralized Data Storage

By storing all information and data centrally, DataNote ERP eliminates delays in accessing critical information due to geographical locations or human interventions.

Masterbatch

Automation

Streamlines processes and reduces manual intervention, enhancing efficiency and consistency.

Data Analytics

Provides valuable insights into production performance and quality metrics.

Business work process tracking

It enables monitoring of production progress, resource utilization, and order status, facilitating efficient decision-making.

Accounts

Streamlines financial management processes and tracks expenses, revenue, and invoicing.

Presales and sales

Enables efficient management of customer inquiries and orders. It facilitates order processing, pricing, and customer relationship management.

DataNote: Your Comprehensive ERP Solution

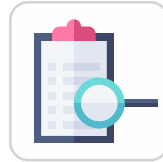

DataNote: Empowering Business Excellence

DataNote is a comprehensive ERP system meticulously crafted to optimize your business operations. Equipped with a suite of robust features, DataNote empowers you to streamline processes, augment efficiency, and propel growth.

Customizable Source Code

Tailor DataNote to your specific business needs with customizable source code, ensuring a seamless fit for your organization's unique requirements.

Audit trail log management

Maintain data integrity with DataNote's audit trail log management, providing a comprehensive record of all system activities for accountability and transparency.

Global Reach with Multi-language Support

Eliminate language barriers and foster effective collaboration across diverse teams and regions with DataNote's comprehensive multi-language support.

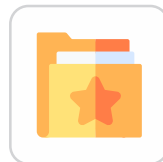

Machine integration for real-time data

Extend DataNote's functionality by seamlessly integrating with third-party applications, optimizing productivity and workflow efficiency.

Dynamic Functionality for Evolving Needs

Stay adaptable to changing business demands with DataNote's dynamic functionality, ensuring flexibility and agility in your operations.

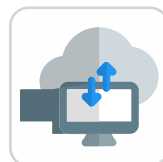

Centralized Document Management

Organize and centralize your documents efficiently with DataNote's document management feature, facilitating information retrieval and collaboration.

Stay Connected with WhatsApp Alerts

Enhance communication and collaboration by staying connected with your team and clients through DataNote's seamless WhatsApp integration.

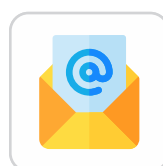

Easy data import feature

Migrate your existing data into DataNote effortlessly with our data import facility. Ensure a smooth transition without disruption to your operations.

Simplify Dynamic Tax Compliance

Simplify your dynamic tax compliance processes by integrating DataNote's GST and E-Way Bill features. Automate tax calculations and documentation for seamless compliance.

Ease in communication with Mailbox

Consolidate your communication channels with DataNote's mailbox integration. Centralize emails for efficient correspondence management and enhance collaboration.

Effortless Handling of Multiple Currencies

Simplify international transactions and expand your global reach with DataNote's multi-currency handling capabilities.

Flexibility Across Operating Systems

Access DataNote easily across various operating systems, ensuring compatibility and accessibility for all users.

Barcode and QR code integration

Enhance inventory tracking and management with DataNote's barcode and QR code integration, ensuring accurate stock management and efficient logistics.

Insights for Informed Decision-Making

Leverage the power of intelligent reports generated by DataNote to gain valuable insights into your business performance, enabling informed decision-making.

A Few of Our Customer's Insights

Client Name	: SAH Polymers Ltd.
Products	: PP Woven Fabric, Woven Bag
Locations	: 2 Factories & 2 Offices
Number of Users	: 40+
Client Since	: 2019
Departments of ERP	: Sales, Planning, Production, Procurement, Finance, Quality, Logistics, Inventory

Client Name	: Terram Geosynthetics Pvt. Ltd.
Products	: Geosynthetic Fabric, Geocells, Grass Pavers & Geocomposits
Locations	: 1 Factory & 1 Office
Number of Users	: 40+
Client Since	: 2016
Departments of ERP	: CRM, Sales, Inventory, Quality, Logistics, Procurement, Planning, Production

Client Name	: Multiplast Polymers Pvt. Ltd.
Products	: Plastic Bottles & Closures for Pharma & FMCG Packaging
Locations	: 1 Factories & 1 Office
Number of Users	: 60+
Client Since	: 2018
Departments of ERP	: Marketing, Planning, Production, Quality, Logistics, Inventory, Procurement, Finance, HR & Payroll

Client Name	: KTex Nonwoven Pvt. Ltd.
Products	: Medical & Hygiene Spun-Melt (SSMMS) Nonwoven & SSS Nonwovens
Locations	: 1 Factories & 1 Office
Number of Users	: 25+
Client Since	: 2019
Departments of ERP	: CRM, Procurement, Production, Logistics, Export, Quality, Inventory

Client Name	: Ecoplast Ltd.
Products	: Multilayer Polyethylene Film Manufacturers
Locations	: 2 Factories & 2 Office
Number of Users	: 35+
Client Since	: 2023
Departments of ERP	: Sales, Procurement, Planning, Production, Quality, Logistics, Inventory, Finance
